

# Manage My Social

The Team at **Manage My Social** are all about difference, change, and being unique.

As you might have guessed we are a social media agency with a twist.

We focus on small to medium sized businesses that need help with their social media and campaigns.

**We can do everything from:** *Website Development, Virtual Assistants, Graphics, Advertising, Website Analysis, Strategy, Social Media Management, Newsletters and More.*

If you don't see what you need, please ask us and we can work something out.

“

I've been working with Suzanne from *Manage My Social* since my tour business started last year. It can be a challenge to be out all day in the bush guiding tours and then try and find the time at night to compile good shareable content and photos. I've found it so much easier to get Suzanne to Manage My Social, so I can focus on my core business - being in the bush with my customers.

**Blue Mountains Day Trip Tours**  
**James Robinson**  
Chief Guide

**Friendly, responsive and proactive, I used Manage My Social to help me create my website and amplify my business presence in the world.**

**It was very reassuring to be able to talk though ideas with Suzanne and James and have my knowledge gaps filled in an engaging and patient way.**

**I also like that they have worked for both big business and created their own ventures plus that they keep up with it all by being an active part of B2B and technology networks.**

**Oh, and did I mention they are reasonably priced? I'm a small business. I want suppliers who I can trust. Manage My Social is my kind of supplier.**

**Kate Southam - Southam Communications and Kate's Career Coaching.**
